

VYVEDAS  
nature's spirit

## A JOURNEY THROUGH NATURE *introducing* VYVEDAS

*Exclusively from* **PERFUMANIA**

Today science advances are able to produce just about any type of skincare product, but nothing compares to the effectiveness, healthiness and absorption power of truly natural substances. *Brazil* is a country very rich in natural resources and that's why **VYVEDAS** was created with the finest natural ingredients found throughout the country's Amazon as well as unique raw materials from other parts of the world. **Perfumania** will be exclusively offering this unique *Brazilian* product line in their stores nationwide beginning in January 2006.

The **VYVEDAS** philosophy is based on the *Ayurveda* times. It is steeped in rejuvenation and reflects a holistic approach to skincare and takes into consideration the fact that happiness, health and peace require a harmonious integration between body and mind. Thus, all that we ingest and apply to our skin -- even our behavior and disposition -- influences the delicate body and mind balance.

With the **VYVEDAS** holistic philosophy comes formulations containing ingredients that relax the soul and offer phyto-therapeutic benefits that only essential and vegetal oils can produce. A further benefit is the aroma therapeutic properties found in every product. **VYVEDAS** uses 100% vegetal oils in its formula -- a much more concentrated form than extracts. The pure essential oils used in **VYVEDAS** products allow for greater moisturizing action, natural protection against free radicals, better skin flexibility and preservation.

All **VYVEDAS** products have a rigorous quality standard. They are focused on the quality of the ingredients as well as the well-being of those who use them. None of the products use any ingredients from animal nature and they are not tested on animals.

###
